

Dear Tech Scouts,

On behalf of Poughkeepsie Middle School, I would like to express our deep thanks for your extraordinary efforts this past week in giving PMS a new computer lab.

I understand that last Monday and Tuesday afternoons a handful of Scouts worked with Mr. Moreinis from 3:00 to 7:00 and pulled about 27 Apple IIGS systems from our maintenance storeroom, tested them, cleaned them, and configured them for use in a new typing lab in room 217. They also moved desks out and into the maintenance storeroom and brought tables in.

Your efforts have made it possible for us to move our typing classes to room 217, freeing up room 321 as a general purpose computer lab for our 7th and 8th graders, who have not had one until now. This is a great improvement for our school, particularly because this lab will be connected to the library and the Internet. It means all 7th and 8th graders will have an opportunity to access the Internet for research projects, as well as make use computers for their other school projects.

You are doing thorough and necessary work for the district and it is much appreciated!

Sincerely,

Diane Hammond  
Assistant Principal, Poughkeepsie Middle School
